1

1. Mini Anemometer

A mini wind speed and wind temperature tester. This lightweight device is equipped with the latest magnetic sensing technology which can directly display the air flow speed on the LCD display. It is a perfect tool for sport events, wind measurement, navigation, HVAC, and other areas.

- Accuracy: wind speed; ±5%rdg +0.5, temperature; ±2°C
- Power requirement: 1.5V batteries (AAA) x 3
- Product size: 160 x 50 x 28mm
- Weight: 118g

2. Bluetooth Mini Anemometer

A mini wind speed and temperature meter, which can measure wind speeds up to 45m/s. It uses Bluetooth to transfer data and analyse, store, export through UNI-T's custom mobile APP (iENV). iENV can be downloaded from Google Play, Apple Store or UNI-T's website by searching 'iENV'.

The Bluetooth mini anemometer features dual display of wind speed and temperature, in 7 selectable units: m/s, km/h, ft/min, knots, mph, °C and °F. It has a 12 level Beaufort scale indicator, wind chill index (condition: ambient temperature below 0°C, wind speed higher than 5m/s). A special fan structure design, can detect startup wind speed as low as 0.1m/s. It also features MAX/AVG modes, auto power off, user-friendly interface.

- Sampling rate: 2/s
- Working environment: 0 - 40°C (≤80%RH), 40 - 50°C (≤45%RH)
- Storage environment: -20 - 60°C (≤75%RH)
- Battery: 1.5V (AAA) x 3
- Product size: 163 x 55 x 28mm
- Product weight: 118g

3. Mini Vane Thermo-Anemometer

This easy-to-use mini vane anemometer with user selectable measuring units for air velocity. The lightweight, slim line unit also displays maximum measured values and average values since power on.

- 0.4 to 30m/sec
- Measures temp from -20 to +60°C
- Selectable units: m/s, ft/min, mph, km/hr or knots
- Sapphire jewel bearing ensures fast, accurate readings
- 30mm colour LCD display
- Auto power off
- Supplied with batteries and user manual
