1

1. ATP 4-in-1 Multi Function Environment Meter

Measures sound levels, light levels, %RH and temperature. The LCD display has large digits and function indicators. It has semiconductor sensors in the probe for humidity and ambient temperature measurements. It is supplied in a carry case with lux probe, humidity/temperature probe, K-type wire probe, wind muffler and battery.

- 2 ranges for sound with selectable 'A' or 'C' frequency weightings
- Cosine corrected silicon diode sensor for lux levels
- K-type input for °C or °F temperature measurements
- Data hold function freezes displayed value
- Max hold displays highest measured value
- Max memory displays highest measured value since power on
- Auto power off
- Low battery indication
- Standard 4mm camera bush for tripod mounting

THE1424	Each	£93.51

2. Weather Vane

Simple, robust and practical, can be hand-held or fixed permanently. Includes the letters N, S, E and W as well as O and Z. Complete with product guide. 320 x 220mm (H x W).

Code	Pack	Price
SEB1039	Each	£8.96

3. Sprinkler Rain Gauge

The sprinkler gauge is ideal for controlled watering in your garden. Record any rainfall and record how much you apply using sprinklers. The conical reservoir has a sturdy spike at the base – spike it into the ground and the water level can be clearly read from the scale on the side. The scale is in inches and millimetres, and the conical reservoir means that even the smallest rainfall can be measured.
