1. Alicante Tomato Seeds

A well known and superior variety producing heavy yields of medium sized fruits with a superb sweet flavour. A cordon variety that performs well both under glass and outdoors in a sheltered sunny location. Height up to approx. 200cm. Grow under cooler conditions and when about 8 inches tall either plant in their growing position in the greenhouse, or gradually acclimatise them to outdoor conditions and plant out 18 inches apart in a warm and sunny spot in moist, fertile well drained soil and keep watered.

3. Broad Beans

Broad beans, *Vicia faba*, are ideal to show the formation and structure of seed and fruit as well as germination. Seedlings are excellent for demonstrating phototropism (when seedlings grow towards the light) and geo-/gravitropism when used with a clinostat (B244).

5. Mini 4 Tier Plastic Greenhouse

Perfect for raising seeds and seedlings, cultivating plants, protecting against frost, cold and pests and for display purposes. Four spacious and sturdy wire shelves offer plenty of space for plant pots and trays. Each shelf boasts a generous 8kg weight capacity. The mini greenhouse features a weather resistant transparent PVC cover, making it easy to keep tabs on the progress of your plants. Roll up zip panel door allows easy access and ensures plants benefit from plenty of natural sunlight and fresh air.

- Portable, lightweight yet strong powder coated steel frame
- Easy to assemble in minutes - no tools required
- Ideal for use all year round
- Size: 158 x 69 x 49cm
- Weight: 5kg
