1. Breakaway™ Evidence Tape

Breakaway™ evidence and security sealing tape, is a tamper-indicating tape packaged in a dispenser box. The material is an acetate base which causes this tape to be fragile when placed on a package, bag or box. Attempts to remove this serrated-edged tape will cause it to shred. A white stripe on the tape allows you to easily write on it. Use caution when applying to certain types of evidence, such as vehicles. It does not come off easily and may damage any surface to which it is applied. Each roll measures 3.5cm x 33m.
