1. Urine Test Strips

Simple test strips for detecting the presence of glucose or protein.

Code	Description	Pack	Price
BB1018	Glucose test strips	50	£8.52
BB1020	Protein test strips	50	£8.31

2

2. Pulse Oximeter

The pulse oximeter can be used to measure human haemoglobin saturation and heart rate through a fingertip. Pulse oximetry uses a light emitter with red and infrared LED, that shines through a reasonably translucent site with good blood flow e.g. fingertip. Opposite the emitter is a photo detector that receives the light that passes through the measuring site.

Easy to operate: put the test subject's finger into the rubber cushions of the clip and then clip the finger. Press the switch button once.

The LCD digital display will show:

- Pulse intensity by a single column bar graph
 - Pulse rate as numbers
 - SpO₂ (pulse oxygen saturation %) as numbers
- Supplied with a hanging rope. Requires 2 x 1.5 V AAA batteries.

Code	Pack	Price
★ LOG3546	Each	£47.00

3

3. Stethoscope

Basic medical stethoscope with bell and diaphragm heads. For listening to pulse and breathing. Spare diaphragm and ear pieces included.

Code	Pack	Price
EDU1006	Each	£5.16

4

4. Condom Training Models

This economic set consists of 20 styrofoam penis models and provides a means of practicing the correct use of condoms, even in large groups. The reusable models can be fixed to the desktop with adhesive tape, so that both hands are free for rolling the condom into position. Great for sex education!

Code	Description	Pack	Price
SEB2000	Condom training models	20	£84.62
SEB2002	Condoms non-lubricated	12	£10.14
