1. Euromex EduBlue Stereo Microscope

The EduBlue range are specially developed stereo microscopes suitable for various applications in schools and colleges.

- Paired secured wide field eyepieces WF 10x/20 with eyeshades
- Binocular 45° inclined tubes with diopter adjustment on left tube, interpupillary distance adjustable between 55–75mm
- Pair 1x and 3x objectives mounted in a revolvable nosepiece
- Magnifications 10x and 30x and a field of view 20/6.7mm
- Rack and pinion metal stand with stove-hardened off-white lacquer. Two coarse adjustment knobs. With transparent and black/white object plate. With two object-clips
- Diascopic and incident LED illuminations that can be used simultaneously. Built-in rechargeable 1.800mAh battery delivered with AC/DC adaptor
- Packing complete with dust cover in styrofoam case
- Accessories available upon request

5 year warranty for mechanical and optics. 2 year warranty for electrical parts.

2. Euromex CMEX 1.3MP Microscope Camera

A perfect solution for modern digital microscopy in teaching, suitable for biological, metallurgical and stereo microscopes.

- Sensor: $^1/_3$" CMOS, 1.3MP
- Output: high resolution 1280 × 1024 pixels format
- Pixel size: 3.6µm × 3.6µm
- Frame rate:
  - 1280 x 1024 pixels up to 15f/s depending on camera settings and illumination
  - 640 x 480 pixels up to 30f/s depending on camera settings and illumination
- Colour filter: RGB
- Mount: C/CS-mount
- ADC: 10 bits
- Colour depth: 24 bits
- Signal/noise ratio: 55db
- Dynamic range: 72db
- Sensitivity: > 1.3V/lux at 550nm
- Exposure: automatic or manual from 1ms to 300ms
- Interface: high speed USB 2.0 (480Mb/s)

3. Euromex Q Scope Digital Microscope

Get connected through USB to your computer to observe, share and analyse your captured or live images with our powerful user-friendly (free of charge) software, for advanced image processing. These digital microscopes are supplied with a free basic stand, software and manual. Ideal for teachers showing any object from a stamp to an ant at a variable magnification of 10x to 50x, and an additional high power 200x magnification. All in one device. High quality sensors ensure bright & crisp image quality at high frame rates - up to 30fps.

- 1.3MP
- Plug and play
- Ergonomic grip
- Ideal for showing and sharing pictures and movies
- Models with polarising filters available
