

1 Motic

1. Motic SFC-3 Monocular Microscope

The SFC-3 series is easily recognisable by its classic design. Its large gripping area makes it an easy to handle microscope throughout the classroom and even outdoors. This series is designed with younger school and hobby users in mind. Its simplicity allows young and inexperienced users to be introduced to the fascinating world of microscopy. Although designed for more inexperienced users, the optics of the SFC-3 series offer an excellent image. Coupled with a second-to-none mechanical quality, this Motic series aims to bring you years of enjoyable use. Both SFC-3A and SFC-3AF are available with either a 42mm Ø plano-concave mirror or LED illumination, which makes this microscope suitable for fieldwork as well.

Common features:

- Vertical monocular head which can be tilted 45°
- Widefield eyepiece 10x/14mm with built-in pointer
- Revolving triple nosepiece with click-stops
- Achromatic objectives 4x/0.10, 10x/0.25, 40x/0.65 spring
- Coarse focusing adjustment
- 99mm x 90mm stage with stage clips
- Rotating disc diaphragm
- Removable plano-concave mirror

Additional features:

MIC5910 only

- Fine focusing adjustment

MIC9069 only

- LED illumination instead of mirror
- Coarse controls only

Code	Description	Pack	Price
MIC5908	SFC-3A (coarse focus only)	Each	£63.50
MIC5910	SFC-3AF (coarse & fine focus)	Each	£72.25
MIC9069	SFC-3AF (with LED illumination)	Each	£105.95

Spares & Accessories

Code	Description	Pack	Price
