1. Motic B1 Elite Series Microscopes

The renewed B1 Elite series incorporates a wide range of features designed for university and laboratory use. Superb optical clarity and reliable mechanical engineering assures years of top performance. Sections, smears and other transparent samples are treated by semi-plan achromat objectives mounted in a 4-fold nosepiece.

- Semi-plan objectives in a 160mm finite system
- 10X/18 eyepieces give an easy sample overview
- 3W LED illumination system in intensity control
- Focusable 1.25NA Abbe condenser carries an iris diaphragm to contrast native and weakly stained sample
- Built-in rackless stage with sample holder enables safe x/y movement
- Reversed 4-fold nosepiece gives space for trouble-free changing of slides
- Adjustable coaxial focus drive
- Supplied with dust cover and immersion oil

10 year warranty on optical/mechanical parts, 2 year warranty on electrical parts.
