1. Motic Moticam A Series Digital Microscope Cameras

Moticam A Series Starter Line cameras are designed with microscopy beginners, teaching environments, hobbyists and small labs in mind. The A Series is easy to install and ready for immediate use. All accessories are included; calibration slide, eyepiece adapters for any eyepiece tube, a focusable lens and even a macro tube is part of the package.

- A1 - ideal for newcomers as well as advanced enthusiasts, capture everything you need at 720p and work at a steady frame rate
- A2 - discover live specimens with steady 30fps and give yourself a head start into digital microscopy with 1080p resolution
- A5 - has a high resolution above Full HD while maintaining steady 30fps. Take crisp pictures for documentation and public presentations
- A8 - fast sCMOS imaging setup allows 4K resolution while still delivering steady 15fps. Printing images needs high-resolution data and this Moticam delivers the detail needed
- A16 - has a 1/2" sCMOS sensor which is bigger than the others in the A series. The resolution goes above 4K and delivers up to 15fps in live imaging. This is the instrument for forensic level demands
