

1. Moticam S Series USB Cameras

Equipped with back illuminated scientific CMOS sensors, these cameras deliver fast frame rates and powerful image quality. The S1 and S3 are ideal as an introduction to digital microscopy, great for small laboratories that always keep the budget in mind and do not need high resolution images for printing. The S6 has speed, resolution and quality, the 6MP resolution is targeted to large sized monitors and printing purposes. S12 and S20 are for maximum resolution for both display and printing purposes. The Pro S5 cameras are characterised by a large 2/3" sCMOS sensor and a global shutter for speedy handling of moving phenomena, this camera line takes sensitivity as a priority: fluorescence, polarisation and darkfield.

- Attachable digital C mount camera
- USB 3.1 interface
- All in one box, plug and play concept
- Includes Motic Images Plus 3.0 software for PC, Mac and Linux
- Functions include still image and video capture, live and still image measurement, image adjustments, white balance, automatic & manual exposure, individual objective calibration system

Code	Description	Sensor Size	Image Resolution, mpx	Pack	Price
MIC4100	Moticam S1	1/3"	1.2	Each	£415.00
MIC4108	Moticam S3	1/2.8"	3	Each	£457.30
MIC4118	Moticam S6	1/1.8"	6	Each	£573.24
MIC4134	Moticam Pro S5 Lite	2/3"	5	Each	£990.00
MIC4136	Moticam Pro S5 Plus	2/3"	5	Each	£1797.30
X30425	Moticam S12	1/1.7"	12	Each	£762.16
MIC4140	Moticam S20	1"	20	Each	£944.59
