1

1. Mystrica Colorimeter, Bluetooth

The Mystrica colorimeter incorporates many features, but retains an unbeatable price and simplicity in use.

- Wireless connection to iPads and iPhones
- Unchanged USB connection for PCs
- Stand-alone use unchanged

Mystrica Bundle
The bundle includes Mystrica colorimeters fitted in a deep Gratnells tray, with a lid and polythene insert.

Full contents:
- 4 Mystrica colorimeters
- 4 cuvette racks
- Box of 25 x 12mm glass test tubes
- Box of 80 cuvette caps
- Box of 40 cuvettes (4mL)
- 4 USB cables
- 2 user manuals
- 4 laminated instruction sheets
- Deep Gratnells tray

Code	Description	Pack	Price
AHK150I	Mystrica colorimeter	Each	**£128.10**
AHK150IP4	Mystrica colorimeter bundle	4	**£511.16**

2. Biochrom Ultrospec® 35c Colorimeter

The Biochrom Ultrospec 35c colorimeter measures the absorbance/transmission of liquid samples in either a cuvette or test tube at fixed wavelengths to determine molecular concentration. It is ideal for the basic molecular quantification and analysis in life science, chemistry and physics.

- Flexible analysis - measures samples in absorbance and % Transmission modes as well as having simple kinetics functionality
- Robust LED light source - user-selectable wavelengths: 450, 500, 520, 540, 600 and 640nm
- 4.3" colour touchscreen for easy workflow
- Measurement data can be exported to a USB flash drive
- Small footprint, allowing it to be operated as a handheld battery powered unit or connected to mains power on your benchtop
- Easy to clean and requires very minimal maintenance

Code	Pack	Price
COL3411	Each	**£1153.80**

Concept to Completion

Lab start ups including curriculum linked suggested lab start lists, on-site advice and unpack assistance provided by our own team of former science technicians.
