1. Electrodes, Platinum

A pair of 4mm electrodes of rectangular foil fused into a glass tube, with an internal connection lead through a rubber stopper and protective tube.

Code	Pack	Price
CH0740DN	Each	£38.59

2. Electrode Rod Holders

Plastic strip with 4mm socket terminals and two crocodile clips, to hold electrode rods in place during use.

Code	Pack	Price
EDU1092	5	£9.04

3. Lascells Electrode Holder

A robust acrylic base, 130mm wide with two crocodile clip holders. The crocodile clips hold standard 5mm carbon rod or strip metal electrodes, and can be connected to with 4mm leads. For use in electrolysis, electro-plating etc.

Code	Pack	Price
PY3120	Each	£5.81

4. Universal Electrode Holder

These versatile electrode holders are suitable for holding carbon rod electrodes as well as metal strip electrodes. They are designed to fit over 100mL and 250mL glass beakers, being held in place by small plastic lugs to prevent them slipping off.

Resistant to corrosion, they accept up to 8mm diameter cylindrical (e.g. carbon) electrodes and 19mm wide, 0.8mm (minimum) thick metal strip electrodes. Suitable for use with 4mm leads. Complete with 2 carbon electrodes.

Code	Pack	Price
PY1352	Each	£23.13

5. Carbon Rods

Carbon rod 100 x 5mm for electrolysis.

Code	Pack	Price
EL06886	50	£6.05

6. Electrodes, Carbon, 8mm

Spare electrodes for the Circuits Kit Electrode Holder (231-072).

Code	Pack	Price
PY1300	10	£5.50

7. Plates for Simple Cells

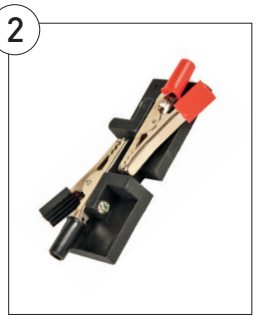

Plate size 125 x 50mm, fitted with 4mm socket terminals.

Code	Description	Pack	Price
PH0926A	Zinc plate	Each	£2.30
PH0926B	Carbon plate	Each	£2.02
PH0926C	Copper plate	Each	£3.21
