

## 1. Electrodes, Platinum

A pair of 4mm electrodes of rectangular foil fused into a glass tube with an internal connection lead through a rubber stopper and protective tube.

<b>Code</b>	<b>Pack</b>	<b>Price</b>
CH0740DN	Each	£42.05

## 2. Electrode Rod Holders

Plastic strip with 4mm socket terminals and two crocodile clips to hold electrode rods in place during use.

<b>Code</b>	<b>Pack</b>	<b>Price</b>
EDU1092	5	£10.66

## 3. Lascells Electrode Holder

A robust acrylic base, 130mm wide with two crocodile clip holders. The crocodile clips hold standard 5mm carbon rod or strip metal electrodes and can be connected to with 4mm leads. For use in electrolysis, electro-plating etc.

<b>Code</b>	<b>Pack</b>	<b>Price</b>
PY3120	Each	£5.42

## 4. Universal Electrode Holder

These versatile electrode holders are suitable for holding carbon rod electrodes as well as metal strip electrodes. They are designed to fit over 100mL and 250mL glass beakers, being held in place by small plastic lugs to prevent them slipping off.

Resistant to corrosion, they accept up to 8mm diameter cylindrical (e.g. carbon) electrodes and 19mm wide, 0.8mm (minimum) thick metal strip electrodes. Suitable for use with 4mm leads. Complete with 2 carbon electrodes.

<b>Code</b>	<b>Pack</b>	<b>Price</b>
PY1352	Each	£20.89

## 5. Carbon Rods

Carbon rod 100 x 5mm for electrolysis.

<b>Code</b>	<b>Pack</b>	<b>Price</b>
EL06886	50	£11.48

## 6. Electrodes, Carbon, 8mm

Spare electrodes for 231-072.

<b>Code</b>	<b>Pack</b>	<b>Price</b>
PY1300	10	£8.31

## 7. S Shaped Electrodes, Pair

A pair of short S-type electrodes for hanging on the side of a 100cm beaker. These carbon elements are attached to stiff wire connectors with shrink-fit plastic insulation. An electrical connection can be made by connecting crocodile clips.

<b>Code</b>	<b>Pack</b>	<b>Price</b>
PY2030	Each	£4.99
