1. BRIGHT Atom™

The BRIGHT Atom™ makes science easier and more comprehensible. The unique model, based on Bohr's atomic model, lets the students make their own atoms, isotopes and ions. The hands-on experience gives the students a natural comprehension of our smallest building blocks. Use the models in chemistry, physics and biology classes.

- Box with lid
- 4 electron orbitals on the lid and 4 at the underside of the box
- 30 protons, 30 neutrons, 30 electrons
- Instruction sheet
- Smart storing of subatomic particles inside the box
- The models can easily be stacked for storing

SEC1000	Each	£26.76

2. BRIGHT Science Kit™

The BRIGHT Science Kit™ is the complete set for teaching atomic structure, isotopes and ions. BRIGHT Teacher Atom™ is a tool for the teacher and is a tool for the student.

- 1 BRIGHT Teacher Atom™
- 8 BRIGHT Atoms™
- Lesson plan/working sheet
- Instructions

Code	Pack	Price
SEC1006	Each	£191.12

3. BRIGHT Teacher Molecule™

The BRIGHT Teacher Molecule™ is the demonstration tool that lets the teacher present molecules and chemical bonding to the class in an easy and concrete way. All parts are magnetic and can be used directly on the classroom whiteboard or blackboard. The model can be used with or without bindings and can show a wide variety of molecules.

- 20 each of black, red and white atoms (representing e.g. carbon, oxygen and hydrogen)
- 10 each of the blue, green and yellow circles (representing e.g. nitrogen, chloride and sulfur)
- 50 bindings
- Instruction sheet
- Smart storing in the box

Code	Pack	Price
SEC1009	Each	£126.13

4. BRIGHT Teacher Kit™

The science teacher's choice in the classroom – the BRIGHT Teacher Kit™. All you need to present the abstract concepts of atomic structure, present molecules and chemical bonding to the class, in one kit. The BRIGHT Teacher Atom™ assists you in presenting the atomic structure, isotopes and ions in chemistry, physics and biology classes.

- 1 BRIGHT Teacher Atom™
- 1 BRIGHT Teacher Molecule™
- Instruction sheet
