

1. Hanna Pocket Water Resistant pH and Temperature Meters

Water resistant, accurate and portable, these handy little pocket meters can go anywhere. Also designed to float if accidentally dropped in water. Features the HI-73127 replaceable electrode with a stainless steel round connector and extendable cloth junction.

- Dual LCD screen that displays pH and temperature readings simultaneously
- Exposed temperature sensor provides fast response time
- Replaceable pH electrode helps to prolong the life
- Automatic buffer recognition and calibration
- Robust, replaceable electrodes
- Proximity of exposed temperature sensor to pH electrode guarantees greater accuracy in temperature compensated readings
- Calibrate directly with Hanna buffer solution sachets
- Battery % displayed on start up with battery error prevention system (BEPS) to support optimum operation
- Supplied with HI-73127 pH electrode, electrode removal tool, batteries and instructions

Code	Description	Pack	Price
PHM4016	pHep4 pH and temperature meter	Each	£144.00
PHM4018	pHep5 pH and temperature meter	Each	£164.00
PHM4130	Low range pH, EC, TDS and temperature meter	Each	£229.00
PHM4132	High range pH, EC, TDS and temperature meter	Each	£229.00

2. Precision Pocket pH Meter

This pocket pH meter is easy to use giving fast, accurate and repeatable measurement of pH values. It has the unique feature of a retractable electrode. The LCD display has large digits making it easy to read the measured values. The protective cap facilitates the ability to put in a small sponge to keep the electrode moist, which will prolong its life.

- Range: pH 0 - 14
- Resolution: 0.01pH
- Accuracy: ± 0.01 pH
- Dimensions: 158 x 40 x 34mm
- Impact-resistant ABS case
- Splash-proof membrane keypad
- Electrode can be extended up to 80mm
- Manual calibration via screw trim pot
- Pocket clip moulded on the rear of the case
- 6 months warranty

Supplied with electrode, protective cap, calibration screwdriver, 50mL calibration solution, carry case and battery.

Code	Pack	Price
PHM1900	Each	£52.45

3. ETI 8000 pH Meter with Electrode

The ETI 8000 pH meter features an easy to read, LCD display and is supplied with a general purpose combination glass electrode and a carrying case. The 8000 pH meter indicates pH over the range of 0 to 14 pH with a resolution of 0.01 pH and an accuracy of ± 0.05 pH. The pH readings are manually temperature compensated over the range of 0 to 60°C (default 25°C). The unit will power off automatically after ten minutes, maximising battery life. At the touch of a button, the instrument will automatically re-calibrate itself when used in conjunction with pH buffer solutions.

Code	Pack	Price
PHM4600	Each	£62.28
