1 pH Bench Meter

A professional quality bench meter.

- Large 18mm LCD display
- Calibration certificate
- Power: 1 x 9V alkaline battery not included
- BNC electrode connector
- Spill proof front panel
- Range: pH 0 - 14
- Resolution: 0.01
- Dims: 147 x 117 x 52mm
- Weight: 250g

The electrode must be ordered separately (PE-03).

Code	Description	Pack	Price
ZPH202	pH bench meter	Each	£60.59
PE-03	Electrode	Each	£38.40

2. Hanna Waterproof Conductivity Tester

The HI 98311 is a waterproof pocket conductivity meter with advanced features such as a replaceable graphite electrode, adjustable TDS ratio, temperature in °C or °F, automatic temperature compensation (ATC) with adjustable ß, battery level indicator, stability indicator, automatic shut-off and automatic calibrating all in a floating, waterproof casing.

Supplied with protective cap, batteries, probe removal tool and instructions.

Code	Pack	Price
CON3205	Each	£148.72

3. 8500 Conductivity Meter

A three-in-one conductivity tester featuring an easy-to-read LCD display that indicates parts per million over a range of 0 to 3500ppm with a resolution of 1ppm, millisiemens/cm over a range of 0.00 to 5.00mS/cm with a resolution of 0.01mS/cm, and temperature over the range of 0 to 50°C with a resolution of 0.1°C. Both the ppm and mS/cm readings are automatically temperature compensated over the operating range of 0 to 50°C, utilising the temperature sensor in the probe.

These conductivity meters are housed in a robust ABS case and powered by three AAA batteries that give a minimum of 5000 hours battery life. The unit will power-off automatically after ten minutes, maximising battery life.

At the touch of a button, the instrument will recalibrate itself when used in conjunction with 816-071 calibration solution.

Code	Pack	Price
CON1246	Each	£97.09
