1. V-Log Pro Data Loggers

The V-Log Pro builds on the trusted performance of the original V-Log data logger, now with enhanced features, expanded connectivity, and an even more intuitive user experience. Designed for modern science education, it supports both internal and three external sensors, including SmartQ and built-in options - making it a versatile, powerful classroom tool.

- Large, high-contrast screen with intuitive, graphical icons
- USB connectivity for reliable wired data collection
- Bluetooth for wireless logging with tablets, smartphones, or PCs
- Sound (mV and dBA), light, pressure and humidity internal sensors
- Compatible with the full range of SmartQ sensors
- Review stored data directly on the V-Log Pro
- Export to a computer for deeper analysis using EasySense Software
- Full data export to external platforms such as Microsoft Excel
- Includes 1 x USB-C lead

Code	Description	Pack	Price
LOG8010	V-Log Pro	Each	**£249.00**
LOG8012	5 x V-Log Pro + charging tray	Each	**£1245.00**
LOG8014	Smart Logger charging tray	Each	**£90.00**
LOG1070	Bluetooth module	Each	**£34.00**

2. Long Sensor Lead

1.5m sensor lead with a male mini-din plug at each end. It is used to connect a SmartQ sensor to an EasySense Data Logger.

Code	Pack	Price
LOG3426	Each	**£6.00**
