1 LogIT world

1. LogIT SensorLink Interface

A powerful, single channel data logger at an affordable price. Supplied with SensorLink interface, light level sensor, LogIT lab single user software, USB cable plus interactive resources, experiment!

- Up to 3 SensorLinks can be used together on the same computer
- Multi colour LED lights to match channel colour on screen
- No batteries needed – powered from computer USB port
- Works with any standard LogIT Microsense sensor
- Package includes SensorLink, light sensor and USB cable

Code	Pack	Price
LOG6048	Each	**£57.10**

LogIT uLog USB Sensors

A range of standalone USB sensors which plug directly in to any Windows PC. Each sensor is accompanied by LogIT's comprehensive software so there are no additional purchases required.

Features:

- Plug 'n' go - built in USB cable plugs into your computer, no batteries required
- Use many sensors together - the built in multicolour LED automatically shows the sensor channel
- Easy - push button to start logging, stop logging or insert a marker without touching the keyboard
- Clip together - sensors lock together for easy storage and use
- Neat - built in cable storage, for tidy and easy storage
- Versatile - unique design allows uLog sensors to be free standing, mounted on a ring stand or hand held
- Affordable - the uLog system makes great financial sense as no separate data logger is required
- Complimentary - compliments the existing LogIT range - see the uLog sensor adapter

2 LogIT world

2. uLog USB Temperature Probe

General air and liquid temperature. Range -10 to +110°C.

Code	Pack	Price
LOG6006	Each	**£60.67**

3 LogIT world

3. uLog USB Light Level Sensor

Light levels and AC lighting using scope mode. Range: 0 – 100,000 LUX.

Code	Pack	Price
LOG6008	Each	**£75.95**

4 LogIT world

4. uLog USB Sound Level Sensor

Sound wave analysis using scope mode and sound level. Range: 50 – 100dBA.

Code	Pack	Price
LOG6010	Each	**£88.96**

5 LogIT world

5. uLog USB pH Sensor & Probe

Can be used for titration, environmental and food tech experiments. Replaceable electrode.

Code	Description	Pack	Price
LOG6012	pH sensor & probe	Each	**£119.92**
LOG6016	Electrode only	Each	**£58.46**
