1. uLog USB pH/Ion/mV Adapter

Use with pH electrodes, Ion selective electrodes and record millivolts using BNC connector.

Code	Pack	Price
LOG6014	Each	£80.96

2. uLog USB Motion Sensor

Use for SHM, distance time graphs, dynamics, speed of sound etc. Range 200 – 5000mm.

Code	Pack	Price
LOG6018	Each	£154.95

3. uLog USB Light Gate Set

- Master and slave light gates
- Use for timing, acceleration, speed etc.
- Digital timing = 1 microsecond resolution from up to two channels simultaneously
- uLog light gates use one USB socket as the slave is plugged into the master

Code	Pack	Price
LOG6020	2	£134.95

4. uLog USB Sensor Accessories

Code	Description	Pack	Price
LOG6024	Microsense® sensor adapter	Each	£65.73
LOG6026	Extension cable (3m)	Each	£9.91
LOG6028	SensorLab for uLog site license upgrade	Each	£65.26

5. Temperature Sensor ProTemp

This is a precision engineered sensor designed to measure the temperature of liquid or gas. It has a 180mm long stainless steel probe and is very robust.

- Nominal accuracy: ±1°C at -30 to 130°C

Applications: skin temperature, studying cooling curves, insulation properties of materials, cooling by evaporation, how animals survive different climate conditions, energy release by germinating seeds, environmental monitoring and numerous others.

Code	Pack	Price
LOG6052	Each	£40.48
