1. Clearbox DC Motor

A combined motor and gearbox unit, especially designed for educational use. The motor operates between 1.5 and 6V DC and the unit includes interchangeable gears, giving a range of speeds and motor torques.

Code	Pack	Price
EL10068	Each	£9.84

2. Lascells Mounted Motor

Miniature DC model motor fitted with pulley.

Code	Pack	Price
SX100-096	Each	£11.58

3. Gearbox

Ideal for projects, providing high power and low speed and designed to fit model MM28 motor (order code EL10064). The Perspex base incorporates holes for screw fixing if required. The assembly also includes a precision worm and gearwheel, and a 150mm long x 4mm Ø output shaft.

Code	Pack	Price
EL10074	Each	£2.56

4. Propeller

Plastic propellers designed to fit onto the shaft of standard DC motors.

Code	Description	Pack	Price
EL10076	2 blade	Each	£0.65
EL10078	3 blade	Each	£0.73

5. Miniature Impellers

Plastic push-fit impellers, suitable for use with all miniature DC motors with a 2mm shaft. Available with 4 blades (57mm Ø) or 5 blades (60mm Ø).

Code	Description	Pack	Price
EL10080	4 blade, 57mm	Each	£0.64
EL10082	5 blade, 60mm	Each	£0.76

6. Prototyping Board

White high durability acetal board mounted on adhesive foam base. Contact positions clearly indicated by screen printed alphanumeric grids and colour coded polarity indicators. Interlocking facility enables two or more boards to be fixed together. Total 400 tie points: 1 terminal strip (300 tie points) and 2 distribution strips (100 tie points). Dimensions: 80mm (L) x 54mm (W) x 10mm (H).

Code	Pack	Price
EL10090	Each	£6.15
