1. Lascells Mounted Transistors

Mounted component transistors.

Code	Description	Pack	Price
EL1408	NPN	Each	£7.68
EL1410	PNP	Each	£7.78

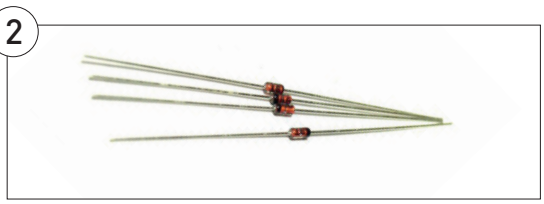

2. Diodes

Standard recovery 1N4000 series 1A rectifier diodes in industry standard DO-41 package.

- Low forward voltage drop
- Low reverse leakage current
- High surge current rating
- Can be mounted in any position
- Flammability rating UL 94V-0
- Operating temp. range -55 to +125°C
- RoHS compliant

Code	Pack	Price
EL1134	Each	£0.10

3. Lascells Mounted Diode

- Silicon diode suitable for all circuit work including rectification
- Maximum current 1A

Code	Pack	Price
ELE0024	Each	£6.62

4. Lascells Mounted Component Photodiode

A mounted, light sensitive photodiode. It can be incorporated into electronic control circuits. It has excellent response to visual wavelengths, with a peak in the infra-red at about 850nm.

Code	Pack	Price
PHY1056	Each	£7.83

5. Lascells Mounted Component Phototransistor

A mounted, light sensitive phototransistor. It can be incorporated into electronic sensor circuits. It has high sensitivity to visual wavelengths, with a peak in the infra-red at about 850nm.

Code	Pack	Price
PHY1068	Each	£8.27
