1. Worcester Circuit Board Kit

The kit consists of a baseboard with terminal connections, a set of high quality plastic connectors with metal inserts, a potentiometer, lamp holders and accessory units. This enables a variety of circuits to be constructed quickly. Supplied with all accessories, without cells. Supplied with manual.

Code	Pack	Price
PY2014	Each	£60.56

2. Component Holder

Pack of 8 mounted clips, to hold components in physics investigations.

Code	Pack	Price
231-034N	8	£17.61

3. Lascells Mounted Component Holder

Standard 4mm laboratory leads plug directly into the two crocodile clips. Any wire-ended component can be supported between the clips for connection into a circuit.

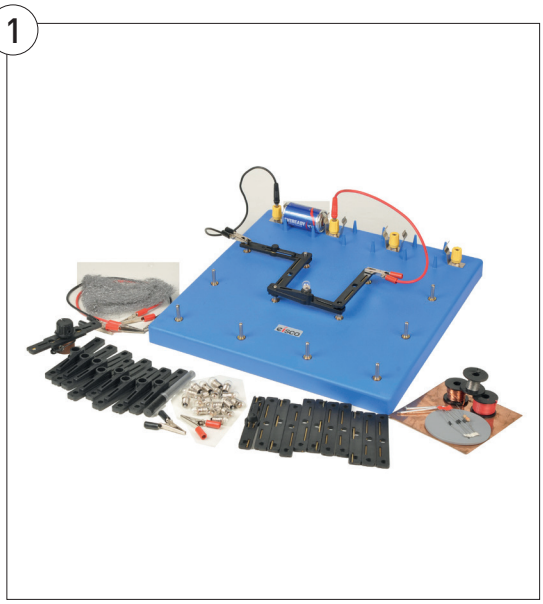

Code	Pack	Price
SX100-097	Each	£6.16

4. Lascells Junction Block

Neatly connect multiple 4mm wires and simplify circuit layouts with this multi-way connector.

Code	Pack	Price
PY3122	Each	£8.84
