1. 3B Levers Kit

The law of the lever follows from the equilibrium of moments, which works for all three classes of lever. It represents the physical basis for all kinds of mechanical transmission of force.

2. Lascells Centre of Gravity Kit

This kit contains all of the necessary apparatus for a class to determine the centre of gravity of an irregularly shaped object.

Includes: 3 sets of 5 irregular acrylic shapes, 15 pins and 15 pendula allowing a full class to complete the experiment.

SEP1012	Each	£48.91

3. Lascells Barton's Pendulums

Barton's pendulums is a well known resonance effect, but usually difficult to set up and store. This apparatus stores flat and can be quickly unfolded to show the resonance between similar length pendulums. Once the demonstration is over it can be closed up again to safely store the pendulum arrangement until required again.
