1 IPC IRWIN 5 YEARS

1. IPC Irwin Powerbase S8

AC and DC are available simultaneously in any combination up to a combined output of 8 amps. Output is protected by a panel mounted thermal cut out.

- 0 to 12V AC/DC in 1V steps
- 8A combined simultaneous output
- Resettable thermal trip switch protection
- Voltage lockable via an allen key

Code	Description	Pack	Price
SES8B	S8 - blue case	Each	**£203.58**
SES8C	S8 - clear case	Each	**£195.05**

2 IPC IRWIN 5 YEARS

2. IPC Irwin Powerbase V8

This is an updated version of the Irwin Powerbase 32. Essentially it is the same as the 32 but has a higher power rotary transformer and a high specification toroid transformer replaces the original chassis transformer. Output is continuously variable and protected by a panel mounted thermal cut out.

- 0-20V DC & 0-16 AC continuously variable PSU
- Smoothed DC output
- 8A combined simultaneous output
- Resettable thermal trip switch protection
- Voltage lockable via an allen key

Code	Description	Pack	Price
SEV8B	Irwin V8 - blue case	Each	**£202.41**
IR1010	Irwin repair kit	Each	**£35.44**

3 IPC IRWIN 5 YEARS

3. IPC Irwin Powerbase S10

- DC output voltages 2, 4, 6, 8, 10, 12V
- AC output voltages 2, 4, 6, 8, 10, 12V
- Output current 5A
- Output limited via allen key operated voltage lock
- Push button thermal cut-out protection
- 2A, 20mm internal glass fuse
- Mains input 230/240V AC, 50Hz

Please note that the DC output is not smoothed.

Code	Pack	Price
IS1000B	Each	**£154.98**

4 IPC IRWIN

4. Repair Kit for IPC Irwin Power Supplies

Comprising a brand new case, three "mushrooms" for the rear to act as a cable tidy, a cable clamp, and full instructions.

Code	Pack	Price
IR1010	Each	**£35.44**
