

1. SLS Lab Basics Bottletop Dispensers

Ergonomically designed for easy use and outstanding performance, in addition to being extremely durable and reliable. This is achieved by ensuring that only the highest quality raw material and components go into the product. Calibrated in ISO 17025 accredited calibration facility.

- Fully autoclavable
- Just a single tool needed for recalibration
- Conductive handling: ergonomic design for convenient sampling
- Low pressure dispensing even for larger volumes
- Volume lock: smooth and accurate volume setting
- Universal bottle adaptor: comes with 4 additional adaptors for regular bottle sizes
- Uncomplicated mounting: snap-fit mounting of discharge tube
