

Discover high precision temperature control laboratory solutions, catering for the needs of tomorrow's scientists today

High quality well-engineered thermal control and life-science products

Products designed and manufactured in the UK

Supplying products to the UK market for over 70 years

Trusted supplier to the world's research, educational and industrial markets

3 years warranty, as standard

Featuring our entry level models, JBA5, JBA12 and JBA18

1. Grant JB Academy Unstirred Water Baths

A basic, simple to use, high quality water bath range, consisting of three great value models. A polycarbonate, perforated base tray is included as standard (lid not included), which promotes heat convection, optimal temperature uniformity, and allows any container to be placed directly in the bath.

- Temperature range: ambient +5 to 95°C ($\pm 0.5^\circ\text{C}$)
- Unique Set and Forget® technology with fast heat up
- Practical front panel lock which disables front panel controls preventing unintentional temperature changes

Code	Capacity, L	Pack	Price
BAT3310	5	Each	£419.68
BAT3312	12	Each	£506.25
BAT3314	18	Each	£528.05
