1 LAB BASICS 2 YEARS

1. SLS Lab Basics Mini Centrifuge

The SLS Lab Basics mini centrifuge is ideal for microfiltration and quick spin downs from the walls and caps of microcentrifuge tubes. The compact design takes up less than six inches of bench space and features an easy open clear lid. Simply close the lid for acceleration and open the lid for deceleration, or alternatively use the on/off switch to control.

- Maximum speed 7000RPM/2680 x g
- Supplied with an 8 place 1.5/2.0mL microtube rotor and PCR rotor
- Whisper quiet operation
- Ideal for quick spin downs of microtubes and PCR tubes
- Universal voltage

2 Heathrow Scientific 5 YEARS

2. Heathrow Scientific Sprout® Plus Mini Centrifuge

The Sprout® Plus Mini Centrifuge is loaded with features that bring increased efficiency to the lab. Tool free SnapSpin rotors and quick-spin options make the centrifuge fast and easy to use. The lid is ergonomically designed to fit in the palm of the hand for easy repeat opening and quick tube extraction. A weighted rubberised base eliminates potential movement and dampens vibration and noise. Ideal for cell separations, with adapters to accommodate all major microtube and PCR tube styles. The centrifuge housing is made from ABS plastic and the lid is polycarbonate plastic, for easy cleaning.

- A locking lid for added protection when the unit is in use
- A breaking function to quickly stop the unit when powered off or when the lid is opened
- A larger lid to accommodate longer and skirted tubes, as well as taller tube lids
- Maximum speed/RCF: 6000RPM/2000xg
- Dims, l x w x h: 153 x 128 x 109mm

Code	Colour	Pack	Price
CEN2114	Green	Each	£313.45
CEN2116	Blue	Each	£299.96
