

1. Bunsen Burners, Meker Pattern

Designed for use with Primus butane/propane mix gas cartridges. Achieves temperatures of up to 1000°C.

Design of gas cartridge enables the burner to be detached and reattached as often as needed.

The burner is constructed of brass with a replaceable plated steel perforated head. Typical burning time of the 240g cartridge is approximately 3 hours.

Cartridge must be ordered separately.

| Code | Description | Pack | Price |
|---------|----------------------------|------|--------|
| BUR4604 | Gas burner, head unit only | Each | £44.01 |
| BUR4607 | 240g gas cartridge | Each | £7.23 |

2. Becelec 2 Electric Burner Set

The Becelec electric burner offers laboratories a unique safe replacement option to conventional gas Bunsen burners. The high power heater combined with a reflective internal stainless steel bowl produces a concentrated stream of heat comparable with that of existing gas-powered Bunsen burners. Supplied with reflective internal stainless steel bowl, wire safety guard, retort stand and clamp.

| Code | Pack | Price |
|-----------|------|---------|
| BEC2UKSET | Each | £183.48 |
