1 Miele 1 YEAR

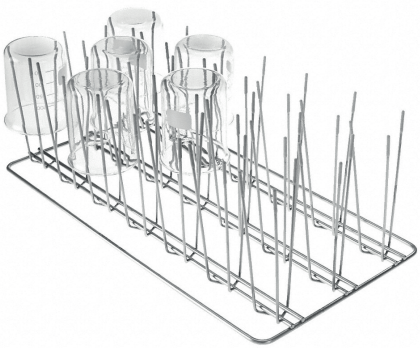

1. Miele ExploreLine PLW 8604 Laboratory Dishwashers

The ExploreLine is the effective and economical solution for labs in schools, universities, small businesses and, in fact, anywhere requiring simple solutions. By switching from manual to automated lab glassware cleaning you can take the load off your hands and save valuable time and resources. Take the next step in your lab with our new ExploreLine – for simple, safe, sustainable and cost-efficient lab glassware cleaning. Your lab, your choice.

- Simple to operate: intuitive menu navigation and clear touch display
- Quick access to predefined programmes and individualised settings
- EasyLoad modular accessory system makes loading straight-forward and flexible to suit your individual requirements
- Automated washing is efficient and cost-effective
- Consistent and analytically clean results every time
- Energy-saving and uses less water than manual cleaning
- WiFi connectivity

This product is supplied empty. Please contact us for a quotation prior to order as we will need to confirm installation requirements, the necessary accessories and resulting costs.
