1. Brain Model, 2 Part

A life size 2 part model of the human brain. The model is a median section. The right hemisphere has the cerebellum and the stem with occipital lobe. On a base and numbered, with key card.

Code	Pack	Price
AM22	Each	£39.59

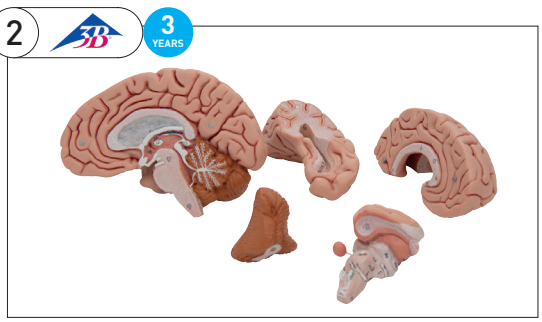

2. 3B Brain Model, 5 Part

The classic brain is a great tool for education on the human nervous system and anatomy of the brain. The brain is delivered on a removable base for easy display in the classroom. This model is an original anatomic cast of a real human brain, sectioned through the midsagittal plane. Now with magnets for easy viewing and hands on learning!

The components of the brain's left half are:

- Frontal and parietal lobe
- Temporal and occipital lobe
- Encephalic trunk
- Cerebellum

SE1000226	Each	£147.04

3. Model Human Brain, 8 Part

Hand painted, life size model of the human brain, separates into 8 parts so that students can learn visually about the basic anatomy of our most complex organ. A detailed keycard is included that corresponds to the 45 numbers on the model itself. The model is divided to show the temporal and occipital lobes, brain stem, cerebellum and the basilar artery. Blood vessels are visible across the entire model. Comes on a convenient stand for mounting and display.

Code	Pack	Price
AM0021	Each	£72.00

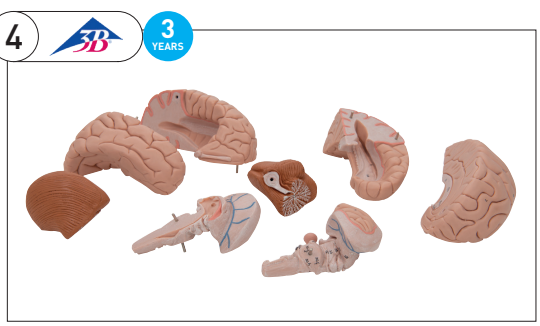

4. 3B Brain Model, 8 Part

A very detailed model of the human brain which is medially divided.

Both halves of this brain can be disassembled into:

- Frontal with parietal lobes
- Temporal with occipital lobes
- Half of brain stem
- Half of cerebellum

Code	Pack	Price
SE1000225	Each	£192.07

5. Ear Model, 3 Part

The model is 2 times full size and dissects into 3 parts, showing external, middle and internal portions. Ossicles and labyrinth can be removed.

Code	Pack	Price
AM38	Each	£21.09
