

1. Mini Digital Incubator with Heating

With digital temperature control, the MyTemp incubators provide convenient "set and walk away" operation, eliminating the need for external thermometers and repetitive "fine tuning" of an analogue control knob. Simply choose the desired temperature and the incubator immediately begins to heat up while accurately monitoring the chamber temperature and conveniently displaying the temperature in real time on the large LED control panel.

- Operating temperature range: +4 to +65°C
- Temperature accuracy (at 37°C): 0.5°C
- Temperature uniformity (at 37°C): $\pm 1.5^\circ\text{C}$
- Large internal chambers, 20L capacity - capable of storing flasks and bottles up to 2L
- Two adjustable shelves
- Internal outlet for powering smaller shakers, rockers and other instruments
