2 uvex

2. uvex i-3 Prescription Power Safety Glasses

Uvex permanent lens coating technology: anti-fog coating on the inside of the lens, scratch resistant on the outside. Variable side arm inclination and side arm flex zones allow the spectacle to adapt to any head width and soft flex temple ends firmly grip the side of the head for a secure, pressure free fit.

- 100% metal free for reduced weight and robustness
- 100% UV protection
- Clear lens – suitable for most light environments
- Completely invisible dioptrre correction starts in the middle of the lens and increases gradually towards the lower edge
- EN166 1F KN CE

Code	Description
SAF1618	No correction
SAF1620	+1.0 dioptrre
SAF1622	+2.0 dioptrre
