## 3. Cole-Parmer® Stuart™ Undergrad Analogue Stirrers

Constructed with powerful magnets and motor, with a square plate design allows you flexibility of vessel sizes and combinations. Up to four 250mL beakers can easily fit on the surface at the same time. For safety, all units are designed to direct spills away from the user controls. The stirrers also feature BioCote® antimicrobial protection which reduces the presence of odour and stain causing microbes such as bacteria, mould, and fungi on the product surface by up to 99.99%. Formulated from silver ion additives, it provides built in antimicrobial protection to support a more hygienic laboratory environment.

- Available with either a chemically resistant glass ceramic plate for added chemical resistance or stainless steel plate for stronger magnet coupling
- Compact, stackable design takes up less benchtop and storage space
- Built with tough aluminium casing for longevity
- Designed to prevent accidental spillage on control panel
- IP32 rated for water and dust resistance
