

1. Cole-Parmer® Traceable® Calibrated Analogue Wall Clock

Quartz-crystal accuracy and sealed case make this clock perfect for the laboratory environment. Bright blue face, large minerals, and red second hand provide easy visibility across a room. Move the clock wherever you need it - it's powered by a single AA battery.

Products have an individually-numbered certificate provided with each unit, that assures accuracy from an ISO/IEC 17025:2017(1750.01) calibration laboratory accredited by A2LA.

- Resolution: 1 sec
- Accuracy: $\pm 0.01\%$
- Display: analogue
- Battery type: 1 x AA
- Outside diameter: 25.4cm
- Includes AA battery, wall mounting screws, and NIST-traceable calibration certificate with data

Code	Pack	Price
94460-50	Each	£22.64
