BIO-RAD

1. UView 6x Loading Dye and Stain

Use this sensitive, nontoxic, and dual-purpose nucleic acid stain/loading dye to immediately visualise DNA fragments separated by agarose electrophoresis.

- Dual-purpose - it's a loading dye and a stain
- Non-mutagenic alternative to ethidium bromide
- No separate staining or preparation required

Code	Pack	Price
ELE1468	Each	£120.00

2. Meridian Bioscience HyperLadder™ 1kb

Ready to use molecular weight marker with higher intensity bands for easy orientation, used for size determination of nucleic acids.

- Broad size range – 14 evenly distributed bands from 200bp to 10kb
- Easy to orientate – several brighter reference bands
- Stable – can be stored at room temperature for up to 6 months
- Supplied with loading dye – for loading sample DNA

Code	Pack	Price
BI033053	100 lanes	£85.00
BI033025	200 lanes	£106.00
BI033026	500 lanes	£188.00

4. Cleaver Mini Fixed Volume Pipettes

These micropipettes are compatible with micro-pipette tips and do not require calibration.

Code	Description	Pack	Price
ELE2332	10µL	Each	£15.17
ELE2334	20µL	Each	£15.17
ELE2336	50µL	Each	£15.17
ELE2338	100µL	Each	£15.17
ELE2340	200µL	Each	£15.17
