Helping You to Make Your Work Environment SAFER

SLS Select education

Back to School

Thank you to all of our customers in this time of crisis

We understand that there are some real challenges faced by the re-opening of schools to pupils and we want to help you ensure a safe working environment for all.

As the Government releases more guidelines on how schools and their students should prepare for the return to the classroom/lab, we appreciate there will be increased apprehension about the health and well-being of staff due to the COVID-19 pandemic. **Now is the time to plan for the return of staff and pupils to ensure their ongoing safety in their working environment.**

Driven by scientific advice and our extensive experiences of working closely with customers working with COVID-19, we have developed a comprehensive range of products critical to ensuring the health and safety of employees as they return to the workplace.

We are a business all about people, so if you have any specific requirements talk to us on **0115 982 2022** and rest assured, operating from **8am to 8pm**, our dedicated team will do all we can to help. **We're here to help protect you and your students.**
