SLS SELECT EDUCATION

LONDON

City and Islington Sixth Form College
283-309 Goswell Road, London, EC1V 7LA

Summary

The course is ideal for staff using the Labexpert UK Chemical and Equipment Stock Control Software or for those who would like to learn more about stock control systems. The programme will focus on chemical storage which will include factors affecting the storage of chemicals, the law, location and type of stores and chemical storage groups including GHS/CLP. This will be a hands-on training session on how best to use the Labexpert UK Chemical & Equipment Stock Control Software. Also including the use of barcode scanners and label printers.

Outcomes

Participants will be able to:

- Develop skills to share good practice and address key issues for the effective storage of chemicals and equipment.
- Enhance understanding of GHS / CLP regulations.
- Develop the skills to fully utilise the Labexpert UK Chemical and Equipment Stock Control Software.
- Evaluate different types of barcode scanners and label printers that can be used with software.

Cost £70 *(includes lunch and refreshments)* ***Plus a 10% Discount Voucher from Labexpert & SLS Sponsorship as above***
