Unstirred water baths » General purpose digital water bath range - JB Nova

## General purpose digital water bath range – JB Nova

General purpose water baths with stable temperature control, simple interface and fast heat-up. A choice of four models with a base tray and lid included as standard.

- Ambient +5°C to 95°C operation
- Unique Set and Forget<sup>™</sup> technology fast heat up, reliable temperature control
- Stability: ±0.5°C
- Simple, intuitive controls quick and easy to set temperature
- Drain tap on 12L, 18L and 26L baths
- Practical front panel lock disables front panel controls preventing unintentional temperatures changes
- 3 year warranty
- Suitable for use with heat transfer beads

Markets:

Education, industry

**Applications:** 

 Practical science demonstration, sample warming, sample preparation, QC materials, sample thawing, sample incubation, media preparation
