

Laboratory Plastic Recycling

RecycleLab is pioneering circular solutions for laboratory plastic to help build a more sustainable future for science.

circular solutions for sustainable science.

We are a resource management company on a mission to transform single-use plastic waste into valuable resources, creating a circular economy and fostering a greener, more responsible future.

- ✓ Designed for labs
- ✓ Transparent closed-loop recycling process
- ✓ Supports ESG goals

Science Laboratory Waste Audit

Identify opportunities for waste reduction, recycling and diversion from incineration or landfill, helping science labs to reduce their environmental impact.

Plastic Collection & Recycling

Bespoke plastic laboratory consumable waste collection, sorting and recycling service, specifically designed for science laboratories.

Supply of Sustainable Products

Supply of test tube racks manufactured from 100% recycled plastic lab consumables, collected by RecycleLab.
