Experience Brilliant 8 Megapixel Resolution

Both HoverCam Series 8 models (Solo 8 & Ultra 8) include all the features covered over these pages; including displaying FULL HD 1080p at 30 frames per second, with no time-lag, in incredible detail. Video is uncompressed using USB 3.0, but still Full HD quality using USB 2.0. Powerful Flex software helps you manipulate both images and video.

The Finest Details Come to Life Using up to 320 times Zoom Capability

The incredible ASR Zoom technology makes use of all 8 million plus pixels, showing you levels of detail not visible to the naked eye!

Multi - Pivot and Zoom

Multiple pivot points enable you to position the lens in exactly the position you want. Extend the Visualiser to a viewing area larger than A3, or zoom right in, just 5cm away from a small object, for maximum clarity.

Microscope Adapter available

HoverCam Visualisers can look down any monocular microscope using an optional adapter, then take snapshots or video footage.

This saves you having to buy a separate high quality digital microscope!

Take Vibrant Photos or Snapshots

The high quality 8 megapixel CMOS sensor, combined with auto-focus, means you can take any pictures you want in incredible detail, from small, detailed artefacts such as a circuit board, to a group photo!

Record Hours of Full HD Video *Ideal for a 'Flipped Classroom'*

With no time-lag, and 30 frames per second capture at 1080p full HD, you can record high quality video footage - uncompressed over USB3, but still full HD with USB 2.

The HoverCam range can also be used as full HD Webcams, for collaborative work using Skype, GoToMeeting or similar.

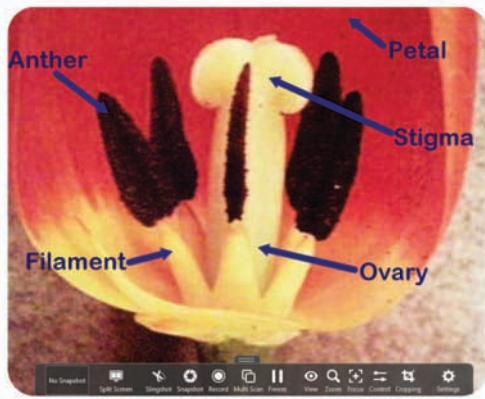

View or Scan anything up to A3 Size

Easily combine any number of scans and save as a multi-page PDF - ideal for digitising content or archiving pupils' work!

Use Time-Lapse Feature to make Videos or Animations

* Images compiled to video using free to download Windows Movie Maker, or similar video editing software

Annotate images, artefacts, or live video

Crop: Take snapshot images of a selected part of the viewing area

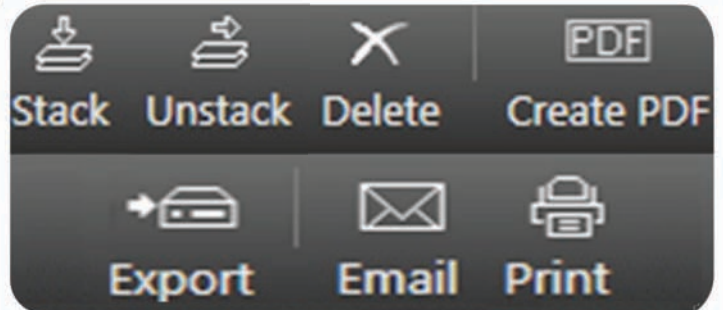

Rotate the image on screen, flip the image, display a 2nd web-cam image on top, or view in full screen mode

Split Screen: Compare the live image with a snapshot taken earlier

Slingshot: Drag the live feed easily into other applications, as images

Use the software to create multi-page PDFs, use Export, Email or Print images

splashtop[®] WIRELESS CONTROL

Increase mobility in the classroom by letting anyone control the HoverCam via a wireless tablet or iPad, using the optional Splashtop software.

Advanced SLR Style Camera Controls: Adjust the image, including Focus, Exposure and White Balance

HoverCam Solo 8

- No lag, full HD output at 30 FPS
- Up to 320 times zoom
- Powered by a single USB cable
- Sturdy and portable
- 5 Year manufacturer warranty

HoverCam Solo 8 Specification

Capture Size	13"x 21", A3, A4, 11"x17", and smaller	Power Requirements	USB 2.0 port (or better)
Image Sensor	8.0 Megapixel high performance CMOS sensor	Microphone	Built-In, with noise reduction
Focusing	Autofocus, Autofocus Lock, Select Region Focus, Minimum 5cm Focal Distance	Interface	USB 3.0 (works with USB 2.0)
Zoom	Total 320X (4X ASR, 8X Interpolated Digital, 10X Mechanical)	Lighting	4 Built-In, Ultra-Bright LEDs
Video Format	YUV (USB 3.0) or MJPEG (USB 2.0)	Dimensions & Weight	28 x 8 x 8 cm; 1.0 Kg
Frame Rate	8MP ASR @ 30fps 1080P @ 30fps	Warranty	5 years by registration
Picture Format	JPEG, PNG, BMP, TIFF, PDF	Storage	Limited only by PC hard disk
Image Resolution	3264x2448, 3264x1836, 1600x1200, 1920x1080, 1024x768, 1280x720, 800x600	Included in Box	Solo 8 Visualiser Flex Software (built-in) USB 3.0 Cable Positioning Mat Warranty Registration form
Image Manipulation	Brightness, Contrast, Saturation, Focus, Exposure and White Balance		
Operating System	Windows 7 or above, Mac OSX 10.6 or above		

HoverCam Ultra 8

- Connect to PC via USB, or directly to display via HDMI or VGA
- No lag, full HD output at 30 FPS
- Up to 320 times zoom
- Extendable 3 year warranty
- Save to Micro SD card or PC

- LCD screen enables direct control, so you can face your audience when presenting

- Remote Control included

Touch-Sensitive LCD preview screen

HoverCam Ultra 8 Specification
