

**Section 1. Identification****1.1 Product Identifier** CHE5638SE

Product Name GLYCEROL TRIACETATE pure 250ml.

CAS Number 102-76-1

REACH Registration No A registration number is not available as the substance or its uses are exempt, the annual tonnage does not require a registration or the registration is envisaged for a later date.

Molecular Formula  $(\text{CH}_3\text{COO})_3\text{C}_3\text{H}_5 = 218.21$ **1.2 Relevant identified uses of the substance or mixture & uses advised against**

Uses of Material Chemical for industrial and laboratory use. Not suitable for domestic use.

**1.3 Supplier** SLS Select EducationWilford Industrial Estate  
Ruddington Lane  
Wilford  
Nottingham  
NG11 7EP  
UNITED KINGDOM

Phone 0115 9821111

Fax 0115 9825275

Email sales@scientific-labs.com

**1.4 Emergency Telephone** (08:00-17:00) 0115 9821111  
(24hr) 112  
(Have this document to hand)**Section 2. Hazards Identification****2.1 Classification of the substance or mixture****Classification according to regulation 1272/2008/EC**

Not classified as hazardous.

**2.2 Label elements****Labelling according to regulation 1272/2008/EC**

Not classified as hazardous.

**Section 3. Composition****3.1 Substances**

Not classified as hazardous.

**Section 4. First Aid****4.1 Description of first aid measures**

|                                      |   |
|--------------------------------------|---|
| Eyes                                 | Irrigate thoroughly with plenty of water for at least 10 minutes, holding the eye open. If discomfort persists<br>OBTAIN MEDICAL ATTENTION. |
| Skin                                 | Wash off skin thoroughly with water.  |
| Inhalation                           | Remove from exposure.   |
| Ingestion                            | Wash out the patients mouth thoroughly with water. Do not induce vomiting.  |
| Personal protection for first aiders | Wear protective gloves / eye protection.  |

#### 4.2 Most important symptoms and effects, both acute & delayed.

No further relevant information available.

#### 4.3 Indication of any immediate medical attention and special treatment needed.

No further relevant information available.

## Section 5. Fire Fighting

### 5.1 Extinguishing media

|                     |  |
|---------------------|--|
| Extinguishing Media | Alcohol resistant foam, dry powder, or carbon dioxide. Use water spray to keep fire exposed containers cool. |
| Unsuitable Media    | Nothing specified.   |

### 5.2 Special hazards arising from the substance or mixture

|         |  |
|---------|--|
| Hazards | Not combustible but assists burning. Presents no specific health hazard if involved in a fire. |
|---------|--|

### 5.3 Advice for firefighters

|                         |   |
|-------------------------|---|
| Advice for firefighters | Consider all other materials in the vicinity. |
|-------------------------|---|

## Section 6. Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

|                     |   |
|---------------------|---|
| Personal Protection | Presents no major hazards. Do not allow other people to enter area. |
|---------------------|---|

### 6.2 Environmental precautions

|               |  |
|---------------|--|
| Environmental | Keep material out of sewers, storm drains, surface waters and soil. Notify the Environmental Agency and local Environmental Health Officer if major spillage occurs. |
|---------------|--|

### 6.3 Methods and material for containment and cleaning up

|                |  |
|----------------|--|
| Major Spillage | Contain and absorb on inert material. Transfer absorbent to salvage container for removal. Wash area down with copious amounts of water. |
| Minor Spillage | Wash area down with copious amounts of water.  |

### 6.4 Reference to other sections

See section 8.2 for information on protective equipment and section 13 for information on disposal.

## Section 7. Storage & Handling

### 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Do not breath vapours. Do not allow to contaminate clothing.  
Ensure Local Exhaust Ventilation maintains vapour concentrations below the recommended limits.

### 7.2 Conditions for safe storage, including any incompatibilities

Well ventilated, cool, dry storage . Protect from direct sun and store away from sources of ignition. Keep containers closed when not in use.  
Keep well separated from oxidising agents.

### 7.3 Specific end use(s)

See section 1.2.

## Section 8. Workplace Exposure & Personal Protection

### 8.1 Control parameters

| Component           | CAS No   | Concentration | Workplace Exposure Limits |                         |
|---------------------|----------|---------------|---------------------------|-------------------------|
|                     |          |               | Long Term (8hr TWA)       | Short Term 15min period |
| Glycerol triacetate | 102-76-1 | >98.5%        | -                         | -                       |

Exposure data source(s) No occupational exposure data currently available.

### 8.2 Exposure controls

|                        |   |
|------------------------|---|
| Respiratory Protection | Use L.E.V. or natural ventilation to maintain vapour concentrations below exposure limits. If not, use a well maintained chemical cartridge organic vapour respirator, or use self contained breathing apparatus. |
| Hand Protection        | Use solvent resistant gloves.   |
| Eye Protection         | Use tightly fitting chemical splash proof glasses or goggles.   |
| Skin Protection        | Avoid contact with skin. If skin contact or contamination of clothing is likely, protective clothing must be worn.  |
| Special Hazards        | No special precautions required.  |

## Section 9. Physical & Chemical Properties

### 9.1 Information on basic physical and chemical properties

|                       |                                  |
|-----------------------|----------------------------------|
| Appearance            | Clear colourless viscous liquid. |
| Odour                 | Odourless.                       |
| pH                    | Not applicable                   |
| Boiling Point         | 258 °C                           |
| Melting Point         | -78 °C                           |
| Flash Point           | 148 °C (Closed cup)              |
| Upper Flammable Limit | 7.7%                             |
| Lower Flammable Limit | 1.1%                             |
| Auto Ignition         | 433 °C                           |
| Explosive Properties  | None.                            |
| Oxidising Properties  | No.                              |
| Vapour Pressure       | 0.3306 Pa @ 25 °C                |
| Relative Density      | 1.161                            |
| Water Solubility      | 58 g/L @ 25 °C                   |

### 9.2 Other information

No data available.

## Section 10. Stability & Reactivity

|   |   |
|---|---|
| 10.1 Reactivity                         | No data available.  |
| 10.2 Chemical Stability                 | Stable under normal conditions  |
| 10.3 Possibility of hazardous reactions | No data available.  |
| 10.4 Conditions to Avoid                | Hot surfaces, naked flames or other sources of ignition.  |
| 10.5 Incompatible Materials             | Strong oxidising agents. Hydrogen peroxide, chromium trioxide and potassium permanganate. Nitric/sulphuric acid mixtures. Perchloric and hydrofluoric acids |
| 10.6 Hazardous Decomposition Products   | None unusual. Burning will produce smoke, carbon monoxide and/or carbon dioxide.  |

## Section 11. Toxicological Information

### 11.1 Information on toxicological effects

|           |  |
|-----------|--|
| Eyes      | High concentrations of vapour may be irritating to the eyes. |
| Skin      | Presents no significant hazard by skin contact.              |
| LD50 Skin | >5000 mg/Kg Rabbit   |

|                      |   |
|----------------------|---|
| Ingestion            | Ingestion of large amounts may cause headache, dizziness, nausea, vomiting, thirst and convulsions.   |
| LD50 Oral            | >2000 mg/Kg Rat   |
| Inhalation           | High concentrations of vapour may produce irritation of the eyes, nose, throat and respiratory tract. |
| LD50 Inhalation      | Not available   |
| TCLo                 | Not available   |
| Carcinogenicity      | Not considered to be a carcinogen.  |
| Mutagenicity         | Not considered to be a mutagen.   |
| Reproductive Effects | None identified.  |
| Other Information    | Used throughout the food and cosmetics industries.  |

## Section 12. Ecological

|  |  |
|--|--|
| <b>12.1 Toxicity</b>                             | Readily bio-degraded in the environment. |
| LC50 Algal                                       | Not available                            |
| LC50 Crustacea                                   | 380 mg/L Daphnia magna (48 hours)        |
| LC50 Fish  | 170 mg/L Fish (48 hours)                 |
| <b>12.2 Persistence and degradability</b>        | No data available.                       |
| <b>12.3 Bioaccumulative potential</b>            | No data available.                       |
| <b>12.4 Mobility in soil</b>                     | No data available.                       |
| <b>12.5 Results of PBT &amp; vPvB assessment</b> | Assessment not required.                 |
| <b>12.6 Other adverse effects</b>                | None known at present.                   |

## Section 13. Disposal Considerations

### 13.1 Waste treatment methods

|                        |   |
|------------------------|---|
| Disposal Methods       | Dispose of in a licensed incinerator for organic solvents. Do not dispose of as domestic waste. |
| Contaminated Packaging | Use a licensed waste disposer. Wash out containers with water.                                  |

## Section 14. Transport Information

|  |                                  |
|--|----------------------------------|
| <b>14.1 UN Number</b>                    | Non-restricted                   |
| <b>14.2 Proper Shipping Name</b>         | Non-restricted                   |
| <b>14.3 Transport classes</b>            |                                  |
| UN classification                        | None                             |
| Subsidiary hazard(s)                     | None                             |
| Transport category                       | None                             |
| ADR Hazard ID                            | Non-restricted                   |
| Tunnel Restriction Code                  | Non-restricted                   |
| <b>14.4 Packing Group</b>                | None                             |
| <b>14.5 Environment hazards</b>          | See section 12.                  |
| <b>14.6 Special precautions for user</b> | No special precautions required. |
| <b>14.7 Transport in bulk</b>            | Not transported in bulk.         |

## Section 15. Regulatory Information

### 15.1 Safety, health and environment regulations specific for substance/mixture.

Not classified as hazardous under Classification, Labelling & Packaging of Substances & Mixtures Regulations (1272/2008/CE).

### 15.2 Chemical safety assessment

Assessment not required.

## Section 16. Other Information

The information contained in this document only covers the hazards presented by this material, it DOES NOT constitute a workplace risk assessment. See sections 11 for toxicological information and section 12 for ecological information.
