

PRODUCT DESCRIPTION

These pocket pH meters are easy to use giving fast, accurate and repeatable measurement of pH values. They have the unique feature of a retractable electrode. The LCD display has large digits making it easy to read the measured values. The protective cap facilitates the ability to put in a small sponge to keep the electrode moist, which will prolong its life.

TECHNICAL SPECIFICATIONS	
Range	0 to 14.00pH
Resolution	0.01pH
Accuracy	0.1dB, 1dB (bargraph)
Power	1 x 9V PP3 battery (LR-61)
Dimensions	158 x 40 x 34mm
Weight	120g

- Impact-resistant ABS case
- Splash-proof membrane keypad
- Electrode can be extended up to 80mm
- Manual calibration via screw trim pot
- Pocket clip moulded on the rear of the case
- Supplied with protective cap, calibration screwdriver, 50ml calibration solution, carry case and batteries
- 6 months warranty
