Material description: COPPER (II) CARBONATE BASIC

CAS No: 12069-69-1

|                     |              |                                   |
|---------------------|--------------|-----------------------------------|
| <i>Supplied as:</i> | Product code | Description                       |
|                     | CHE1688SE    | COPPER (II) CARBONATE BASIC 500g. |
|                     | CHE1690SE    | COPPER (II) CARBONATE BASIC 1Kg.  |
|                     | CHE5554SE    | COPPER (II) CARBONATE BASIC 250g. |

## Specification

| Parameter             | Units | Minimum value | Maximum value | Typical value | Notes |
|-----------------------|-------|---------------|---------------|---------------|-------|
| Purity; as Copper     | %     | 54            |               |               |       |
| Iron                  | %     |               | 0.3           |               |       |
| Lead                  | %     |               | 0.1           |               |       |
| Zinc                  | %     |               | 0.3           |               |       |
| Acid insoluble matter | %     |               | 0.3           |               |       |

Revision date: 01/10/2007

Issue date: 24/03/2020

Specification correct at time of issue but is subject to change without notice. It is the users responsibility to verify the material is suitable for the required application.

Ref: 0186/MS/20071001
